

RTS, 1 and 4 Channel Remote

Features

- Wireless radio remote control compatible only with products fitted with Radio Technology Somfy (RTS): roller shutter motors, awning motors, etc.
- Makes it possible to control several products individually or all at the same time using just this one remote control handset. This is made possible by the Telis 4 RTS using a 5 channel radio system, each channel being identified by the indicator lights.
- The Telis 4 RTS also makes it possible to control several products at once.
